

# CSAH 21 / Revere Way Intersection Improvements

*A separate mailing will be sent for a project open house later this summer.*

## INTRODUCTION

The City of Prior Lake, in partnership with Scott County, is planning for improvements to the intersection of CSAH 21 and County Road 87/Revere Way. A traffic study was completed in 2019 to evaluate the existing traffic operations and crash patterns to determine the most appropriate intersection design. The City is moving forward with preliminary and final design efforts for the preferred alternative intersection design.

## UPCOMING WORK

The City will be conducting field surveying and soil boring work over the next several weeks to use as a basis for the project design.

## PROJECT SCHEDULE

Who can I contact with questions?
